TITLE Education Cost Study, 2001-02: Higher Education Expenditures for Instruction (State Support Plus Tuition).

INSTITUTION Washington State Higher Education Coordinating Board, Olympia.

PUB DATE 2003-04-00

NOTE 154p.; Second Printing. For the 1989-1990 cost study, see ED 365 235.

PUB TYPE Numerical/Quantitative Data (110) -- Reports - Research (143)

EDRS PRICE EDRS Price MF01/PC07 Plus Postage.

DESCRIPTORS Community Colleges; Comparative Analysis; \*Costs; \*Enrollment; \*Expenditure per Student; Full Time Equivalency; Graduate Study; Higher Education; Operating Expenses; \*Public Colleges; State Universities

IDENTIFIERS University of Washington; \*Washington; Washington State Community College System

## ABSTRACT

Produced every 4 years by the Washington Higher Education Coordinating Board, the "Education Cost Study" provides detailed instructional cost information for the state's public 2-year and 4-year institutions. The cost analysis is based on expenditures drawn from two sources: state appropriations and tuition revenue. By using data gathered from each institution, the study summarizes the cost of instruction at 6 4-year schools and 34 community or technical colleges in Washington. For the 4-year schools, instructional costs are provided by level of instruction (undergraduate and graduate) and by discipline. At 2-year schools, instructional costs are provided by type of instruction (academic, precollege, and vocational), and by subject area cluster. Direct costs include salaries and benefits of instructional faculty and staff, personnel who support the faculty directly, and supplies and equipment. Indirect costs include admissions, registration, student services not financed by the students' services and activities fees, and a proportional share of libraries, administration, and facilities and maintenance. Data suggest that the average cost of instruction per full-time-equivalent student at the 4-year undergraduate level was \$8,346 in 2001-2002. For graduate students, the average cost of instruction was \$20,934 in the same year. At the 2-year institutions, the average cost per student was \$4,840 in 2001-2002. Data is presented in table form for each 4-year institution and the community and technical colleges together. An appendix contains a glossary, discipline titles and Classification of Instructional Program codes and course listings by subject area. (Contains 2 graphs and 20 tables.) (SLD)

## 2001-02 Education Cost Study

### Introduction

Produced every four years by the Washington Higher Education Coordinating Board (HECB), the *Education Cost Study* provides detailed instructional cost information for the state's public two-year and four-year institutions. The cost analysis is based on expenditures drawn from two sources: state appropriations and tuition revenue. By using data gathered from each institution, the study summarizes the cost of instruction at six four-year schools and 34 community or technical colleges in Washington.

Information gathered from each institution is broken out in one of two ways:

- At four-year institutions, instructional costs are provided by level of instruction (both undergraduate and graduate), and by discipline.
- At two-year institutions, instructional costs are provided by type of instruction (academic, pre-college, and vocational), and by subject area cluster.

Both direct and indirect costs are included in the study:

- Direct costs include salaries and benefits of instructional faculty and staff, personnel who directly support the faculty, and supplies and equipment.
- Indirect costs include admissions, registration, student services not financed by the students' services and activities fees, and a proportional share of libraries, administration, and facilities and maintenance.

Some expenditures are excluded from the study, either because they are unrelated to instructional activities or because their funding base is not supported by state dollars. Excluded costs include those that are either directly or indirectly related to the cost of research; summer programs; public service activities (such as Washington State University's "master gardener" program); auxiliary expenses – such as dormitories; and self-sustaining activities, where students pay the entire cost.

BEST COPY AVAILABLE

In addition, Health Sciences costs are reported separately from other instructional expenses, and include an appropriate share of each institution's indirect costs.

### **Purpose of the Education Cost Study**

Since 1989-90, the HEBC has been required under statute (RCW 28B.15.070) to compile the same undergraduate and graduate information from all public colleges and universities, compare instructional costs, and produce an education cost study every fourth academic year.

Until 1995, the study was used to determine per-student instructional costs as a way for the state to set tuition and fees. Since 1995, the study has calculated the annual cost of instruction to serve a variety of other needs, including cost analyses by the HEBC, legislature, institutions, Office of Financial Management (OFM) and others, as well as providing information to students.

In addition, the study uses the collected data to establish cost ratios between instruction levels (undergraduate and graduate) for both the research and comprehensive four-year schools. For example, if the average annual cost of instruction for a graduate student at a research university is \$18,932, while the cost for an undergraduate student is \$8,491, we can assume that the ratio of graduate costs to undergraduate costs at research universities is 223.4 percent.

In each of the next three years – prior to the 2005-06 education cost study – these ratios will be applied to subsequent enrollments and funding levels in order to determine the annual cost of instruction (as required by RCW 28B.10.044) at all four-year schools.

### **Gathering Data**

Prior to gathering data for the 2001-02 study, the HEBC consulted staff from institutions, the legislature, OFM, the Council of Presidents, and the State Board for Community and Technical Colleges to review methodology and clarify the study's objectives. The institutions began gathering information in fall 2001, and a year later, in November 2002, both groups began reviewing the draft data.

### **Methodology**

To ensure consistent reporting across all institutions, the HEBC developed detailed cost-allocation and cost-reporting procedures and provided each institution with guidelines for reporting data. The State Board for Community and Technical Colleges received a separate manual tailored especially for the community and technical colleges.

Using the guidelines provided, each institution analyzed its direct and indirect expenditures and, when available, categorized those expenditures based on actual source documentation – such as payroll or accounting records. For expenditures that could not be categorized using documentation, institutions were directed to proportionately allocate funds according to the cost reporting manual.

The four-year institutions also included a faculty activity report as one basis for distributing costs. Faculty members at each institution reported how much of their instructional time was spent on each academic level – such as undergraduate and graduate instruction levels – and each discipline. The faculty activity report is required by statute.

### **Branch Campuses**

The *2001-02 Education Cost Study* includes information for the University of Washington and Washington State University branch campuses. Consistent with three previous cost studies, branch campus instruction costs have been combined with the main campus in determining overall institutional per-student costs. It should be noted, however, that because of start-up costs related to new programs, limited enrollment in some disciplines, and the nature of allocating Washington Higher Education Telecommunication System (WHETS) expenditures at Washington State University, costs at branch campuses might not be typical of the main campus.

### **Why Costs Differ Between Institutions**

Instructional costs are affected by a number of factors within each school, and can vary dramatically. For example, one institution may incur significant start-up costs for a new program, while another may move a program to a branch campus, resulting in costs being spread over a smaller student base. The combination of existing programs also affects instructional costs, as does the type and “mix” of faculty and the balance between upper and lower classes. The number of students – particularly in cases where a school is under- or over-enrolled – can affect costs as well. Finally, logistical issues, such as campus size and class size, have an effect on costs.

### **What's In This Report**

The information contained in this report is summarized in the following graphs and tables (pages 4-16). Detailed information, divided by institution, begins on page 19. Finally, the appendix contains a glossary, a listing of “CIP” codes (Classification of Instructional Programs, or areas of study) – which are used by the four-year institutions, and a listing of “subject area clusters,” which are similarly used by the community and technical colleges.

# **2001-02 Education Cost Study Results**

## **Cost of Instruction Per Student**

- **Graph 1:** Undergraduate / Graduate Four-Year Institutions
- **Graph 2:** Two-Year Institutions
- **Graph 3:** Undergraduate Lower Division
- **Graph 4:** Undergraduate Upper Division
- **Graph 5:** Comparison, 1997-98 & 2001-02 / Four-Year Institutions
- **Graph 6:** Comparison, 1997-98 & 2001-02 / Two-Year Institutions

## **Student/Faculty/Teaching Assistant Ratios**

- **Graph 7:** 2001-02 / Four-Year Institutions
- **Graph 8:** 2001-02 / Two-Year Institutions

## **Summary of Ratios**

- **Changes to Ratios Since 1997-98 Study**

## The Cost of Instruction

Graphs 1 and 2 express total instructional costs per full-time equivalent student (FTE) for each institution.

**Graph 1: 2001-02 Cost of Instruction Per Student  
Undergraduate / Graduate Four-Year Institutions  
(state support plus tuition)**

**Graph 2: 2001-02 Cost of Instruction Per Student  
Two-Year Institutions  
(state support plus tuition)**

Graphs 3 and 4 illustrate the cost per student for undergraduate lower and upper division. Lower division instruction is not offered at the branch campuses.

**Graph 3: Undergraduate Lower Division  
2001-02 Cost of Instruction Per Student  
(state support plus tuition)**

**Graph 4: Undergraduate Upper Division  
2001-02 Cost of Instruction Per Student  
(state support plus tuition)**

Graph 5 shows the change in undergraduate costs since the 1997-98 Education Cost Study. In Graph 6, the two cost study years are compared for the two-year institutions.

**Graph 5: Cost of Instruction Comparison  
1997-98 & 2001-02  
Four-Year Institutions – Undergraduate**

**Graph 6: Cost of Instruction Comparison  
1997-98 & 2001-02  
Two-Year Institutions**

## The Ratio of Students to Faculty

Graphs 7 and 8 display student/faculty & teaching assistant ratios at all four-year institutions, as well as student/faculty ratios at the two-year institutions.

**Graph 7: Student / Faculty & Teaching Assistant Ratios  
2001-02 – Four-Year Institutions**

**Graph 8: Student / Faculty Ratios  
2001-02 – Two-Year Institutions**

## **Summary of Ratios**

One of the ratios established by the cost study depicts the relationship between undergraduate costs per student and total average costs per student. Ratios also are calculated for the cost of graduate study compared to undergraduate study, and instructional indirect costs compared to all indirect costs.\*

In 1998, a similar cost study was conducted using 1997-98 expenditure data. The following displays 1997-98 ratios, and also compares these ratios with those derived from the 2001-02 cost study. Shifts in any of these ratios could indicate a reallocation of resources to or from undergraduate and graduate programs.

### **Changes to Ratios Since 1997-98 Study**

	<u>1997-98 Ratios</u>	<u>2001-02 Ratios</u>	<u>Change From 1997-98</u>
<b><u>Research Institutions Ratios:</u></b>			
• Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE	80.2%	80.7%	.5%
• Ratio of Graduate Costs per FTE to Undergraduate Costs per FTE	229.1%	223.0%	-6.1%
• Ratio of Instructional Indirect Costs to Total Indirect Costs	70.3%	71.9%	1.6%
<b><u>Comprehensive Institutions Ratios:</u></b>			
• Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE	97.7%	97.7%	--
• Ratio of Graduate Costs per FTE to Undergraduate Costs per FTE	136.4%	137.4%	1.0%
• Ratio of Instructional Indirect Costs to Total Indirect Costs	96.9%	96.9%	--

Note: Ratios for 1997-98 and 2001-02 for the comprehensive institutions include The Evergreen State College.

---

\* Only Health Sciences costs that are related to instruction (i.e., clinical facilities used for medical teaching) are included in determining the cost of instruction; the totals do not include all hospital costs.

## **Summary Data Tables**

Architecture: The graduate program in Architecture is offered in addition to the professional degree program.

The small number of students AAFTE (0.6) and cost are a residual effect of this dual offering.

\*The information is included in the All Disciplines totals.

Health: The Speech and Hearing Sciences program is split between health programs in Pullman (undergraduate) and Spokane (graduate).

Any residual FTE and cost at this level are included in the All Disciplines totals.

**Engineering:** This new degree completion program in Computer Engineering began in 2000-2001 to serve high community demand.

It was developed and first offered in cooperation with Gonzaga University and the University of Idaho at SIRTI. Gonzaga has since pulled out of the program.

**Health:** The Speech and Hearing Sciences program is split between health programs in Pullman (undergraduate) and Spokane (graduate).

Any residual FTE and cost at this level are included in the All Disciplines totals.

**Sciences:** Costs for sciences are reflected in the All Disciplines totals and are offered in support of other programs.

(Four-Year Institutions)**
- **Course Listings by Subject Area Cluster  
(Community and Technical Colleges)**

## Glossary

**AAFTE:** Average Annual Full-Time Equivalent.

**AAFTE Faculty:** Average Annual Full-Time Equivalent Faculty (AAFTE FAC) pertains to academic instruction staff employed for an academic year as defined by the institution. (Typically, a nine-month contract equals 1.0 Faculty FTE.) Faculty data do not include teaching assistants.

**AAFTE Student:** Average Annual Full-Time Equivalent Student. Calculated by dividing the average annual student credit hours (AASCH) generated during the academic year by 15 for undergraduates and by 10 for graduates.

**AAFTE Teaching Assistant:** Average Annual Full-Time Equivalent Teaching Assistant (AAFTE TA) is defined as a teaching assistant employed 40 hours a week. Typically a teaching assistant's work is 20 hours, equaling .50 FTE.

**AASCH:** Average Annual Student Credit Hours. Student credit hours are converted to average annual student credit hours (AASCH) to ensure uniform reporting among quarter, semester, and community and technical college systems.

**Academic, 100 Level/200 Level:** The community college course level designation for academic classes.

**Academic Year:** The academic calendar used by each institution. The community college system uses four quarters; University of Washington, Eastern Washington University, Central Washington University, The Evergreen State College, Western Washington University, three quarters; Washington State University, two semesters.

**CCs:** The state community colleges, comprised of 29 campuses in 25 districts. The community and technical colleges system also includes five technical college districts.

**CIP Code:** Classification of Instruction Programs code. It is a federal classification system that assigns a six-digit number to individual courses (e.g., applied mathematics, statistics), which are then aggregated into discipline designations (e.g., mathematics). For a complete listing, see Appendix page A-4.

**Cluster:** Two-digit code that groups CIP codes together by subject area. Used by the community and technical colleges.

**Comprehensive Institutions:** The four four-year institutions in Washington offering bachelors and masters degrees: Central Washington University, Eastern Washington University, The Evergreen State College and Western Washington University.

**Direct Costs:** Expenditures such as salary and wages, equipment, and materials specifically identified with the program, project, or activity. As reflected in the Education Cost Study, they are primarily costs that are funded in the instructional program (010).

**Discipline Area:** Academic disciplines (e.g., mathematics) categorized into groups or areas (e.g., science) for the purpose of the Education Cost Study. For a complete listing, see Appendix page A-4.

**FAA:** Faculty Activity Analysis. Reporting instrument used by faculty members to delineate instructional effort by discipline, program, and academic level.

**Faculty FTE:** Faculty full-time equivalent.

**Fund Source:** Numerical coding structure used by the state to distinguish the origin of funds that limit the types of expenditures permitted.

- 001 – General Fund-State
- 149 – Tuition Account (operating fee)
- 148 – Dedicated Local Account
- 145 – Grants and Contracts

**Graduate:** Data for courses at the 500, 600, 700 and 800 levels.

**Indirect Costs:** Support costs that cannot be specifically identified with a program or project, but are part of total costs. As reflected in the Education Cost Study, most indirect costs are funded in the following support programs: Primary Support (040); Libraries (050); Student Services (060); Institutional Support (080); Plant Operation and Maintenance (090).

**LD:** Lower Division. Describes data for courses at the 100-299 (undergraduate) level.

**Pre-College:** Classes offered at the community colleges for students with below-college level skills. Typically adult basic education (8<sup>th</sup>-grade level), G.E.D. or high school diploma, and English as a second language. Credits are not applicable toward an Associate of Arts degree.

**Primary Programs:** The state budgeting structure provides 10 major program categories used by higher education institutions. For the purposes of the cost study, the following programs are designated as primary in all institutions: Instruction (010), Research (020), Public Service (030), and Sponsored Programs (100). In addition, the Hospitals (070) program at the University of Washington is designated a primary program.

**Research Universities:** Pertains to the University of Washington and Washington State University, the two public institutions offering doctoral programs in Washington.

**SBCTC:** State Board for Community and Technical Colleges. Includes 25 community college districts and five technical college districts.

**SCH:** Student Credit Hour. These are converted to average annual student credit hours (AASCH) to ensure uniform reporting among quarter, semester and community college systems.

**Sector:** For tuition purposes, public higher education institutions are classified into three sectors: research institutions, comprised of the University of Washington and Washington State University; comprehensive institutions, comprised of Central Washington University, Eastern Washington University, Western Washington University, and The Evergreen State College; and the community and technical colleges.

**S/F:** Student/Faculty ratio. Calculated by dividing the number of AAFTE students by the number of AAFTE faculty.

**Student AAFTE:** Student Average Annual Full-Time Equivalent.

**Support Programs:** The state budgeting structure provides 10 major program categories used by higher education institutions. For the purposes of the Education Cost Study, the following programs are designated as support: Primary Support (040), Libraries (050), Student Services (060), Institutional Support (080), and Plant Operation and Maintenance (090).

**TA:** Teaching Assistant.

**UD:** Upper Division. Describes data for courses at the 300-499 (undergraduate) level.

**Vocational/Technical:** Category of course work offered at the community and technical colleges in addition to academic and basic skills. Generally these are courses directed toward providing skills and knowledge pertaining to specific employment opportunities.

## **Washington Four-Year Institutions Discipline Titles and Associated CIP Codes**

Codes are those established in the "Classification of Instruction Programs" published by the National Center for Education Statistics (1990 revision).
